Part 4: Reading Comprehension

Read the short text below and answer the questions.

My Ideal Neighbourhood

Hi, I am Leo. I live in a big city called Metropolis. There are many advantages to living here. For example, there are modern amenities, big hospitals, and great schools. However, there are also problems. The air is not clean because of the traffic, and it is very noisy.

Next year, my family is going to move to a small town called Green Valley. It is a rural area. I am excited because I love nature. In Green Valley, people grow their own vegetables using organic farming. Whereas people in the city buy everything from supermarkets, people in the village often share food with their neighbours. I think I will be happier there because I can ride my bike without worrying about cars.

18. Why is Leo's family moving to Green Valley?

- A) Because they want to buy a supermarket.
- B) Because they want to live in a rural area closer to nature.
- C) Because Metropolis has no schools.
- D) Because they like heavy traffic

19. What is one negative thing (disadvantage) about living in Metropolis mentioned in the text?

- A) There are no hospitals.
- B) It is too quiet.
- C) The air is not clean due to traffic.
- D) There are no amenities.

20. Which sentence describes the difference between the city and the village in the text?

- A) People in the city share food, while people in the village buy it.
- B) People in the city buy food from supermarkets, whereas people in the village often share food.
- C) Both the city and the village have heavy traffic.
- D) There is no difference between them.
