Part 4: Reading Comprehension

Read the text below and answer the questions.

The Floating Home of 2050

Imagine living on the ocean! In the year 2050, many people might live in "Sea-Pods." These are special homes that float on the water. They are designed to be very energy-efficient. The roof of the Sea-Pod has advanced wind turbines to generate electricity from the ocean breeze.

Inside, the house is very smart. If you are hungry, a kitchen robot prepares your meal in five minutes. You don't need to clean because the floors wash themselves.

Some people think living on water is scary, but experts say it is safe. It is not the same as living in a city apartment, but it offers a beautiful view of the sea every morning.

17. What is the main energy source mentioned for the "Sea-Pod"?

- a) Solar panels
- b) Wind turbines
- c) Coal
- d) Natural gas

18. According to the text, who cooks the food in the Sea-Pod?

- a) A famous chef
- b) The mother
- c) A kitchen robot
- d) The text does not say

19. Why might some people not want to live in a Sea-Pod?

- a) They think it is scary.
- b) It is too expensive.
- c) It is too dirty.
- d) The internet is slow.

20. Which sentence is true about the Sea-Pod?

- a) It is exactly the same as a city apartment.
- b) It consumes a lot of wasted energy.
- c) It is designed to float on water.
- d) You must clean the floors by yourself.
